

## BRIEFING NOTE

**TO:** Board of Directors

**FROM:** Fizza Asad, Accounting and Human Resources Specialist

**DATE:** December 4, 2023

**SUBJECT:** Approval of The Auditor for the 2023 Fiscal Year

For Decision  For Information  Monitoring Report

---

**Purpose:**

To appoint an auditor for the 2023 fiscal year.

**Background:**

As set out in the by-laws, at the December meeting, the Board is responsible for appointment of the auditor for the following year. Grewal Guyatt was the College's auditor for the fiscal years of 2019 to 2022. Previously, Peter Sevitt, Principal, Sevitt and Associates, functioned as the College auditor beginning in 2002. In 2019 the firm merged with Grewal Guyatt LLP.

**For Consideration:**

At the September meeting, the Executive Committee reviewed the completed auditor assessment tool and discussed observations made by the College's Staff and the committee members in their capacity as the Financial Committee. Audit quality indicators including the auditor's independence/objectivity, level of professional skepticism, the quality of the engagement team, communications with the Board/Staff, and the overall quality of service were addressed in detail.

After completing the review, the Executive Committee agreed that there was sufficient information to come to a conclusion and recommend that the auditor be re-appointed for the following fiscal year audit. The Executive Committee would like the auditors to ensure that a senior audit team member who is familiar with the College's processes will continue to oversee the engagement when newer auditors are assigned to the file.

**Public Interest Considerations:**

The Board has recognized the importance of fiscal and financial responsibility in ensuring that it carries out its mandate to regulate the profession in the public interest. The annual auditor assessment tool was adopted in order for the Board to be in a position to make an informed decision about appointing an auditor who will support the Board in carrying out its obligation to produce an annual audited financial statement.

**Diversity, Equity and Inclusion Considerations:**

The Committee did not identify any concerns with the current auditor that will preclude the Board's commitment to promoting diversity, equity and inclusion in its practices.

**Recommendation:**

The Executive Committee is recommending that the Board approve Grewal Guyatt as the Auditor for the 2023 fiscal year.
